Projects

Agro-Connect (Still in Development)

Built with : Figma, Canva, HTML, Tailwind CSS, React js, Vite, Python, Flask, Wordpress, SqlLite.

This project appears to be related to agriculture or farming. It could be an e-commerce platform for agricultural products, a platform connecting farmers with buyers, or a resource hub for agricultural information.

Pure-Ayu (Still in Development)

Built with : Figma, Canva, HTML, Tailwind CSS, JavaScript, Swiper JS.

This project is likely a website or app for an Ayurvedic products or services company. It might feature information about Ayurvedic products, online consultations, or a booking system for treatments.

Diploma Solution

Built with : Figma, Canva, HTML, CSS, JavaScript , Wordpress, SEO.

This project likely showcases a website or application designed for educational institutions or individuals pursuing diplomas. It might involve features like online course registration, student portals, or career guidance.

Portfolio 2025

Built with : Figma, Canva, HTML, Tailwind CSS, React js, Vite.

A modern and visually appealing portfolio designed to showcase my skills, projects, and experience. It features a

clean and responsive layout with smooth animations, ensuring an engaging user experience. Built with a focus on performance and accessibility.

Portfolio 2024

Built with : Figma, HTML, Tailwind CSS, JavaScript, Parallax js, AOS Library .

A sleek and interactive portfolio designed to highlight my work, skills, and achievements. It features a minimalist design, smooth animations, and a user-friendly interface to provide an engaging experience. Optimized for performance and responsiveness across all devices.

Yoga Classes Site

Built with : Figma, HTML, Tailwind CSS.

This project could be a website for a yoga studio or a platform for online yoga classes. It might include features like class schedules, instructor profiles, booking systems, and potentially even live streaming capabilities.
